

Workload-Distribution Report

CS3773 Course Project

Overview

We would meet about once a week and work on the code together where one person would stream their screen and we would work through each part of the code for that day.

Nicholas O'Connell

- User login and registration

Pedro Alvarado

- State Diagram
- Cart functionality, adding, removing, updating
- Created my parts of the slide and video
- Gather everyone's video and video edited them all
- Organized the video and made it presentable.
